

WOMEN IN CYBER

Get Hands-on with Cybersecurity!

Professional career women are invited to join Women in Cyber, a brand new virtual, cybersecurity-skills development program. During the course of this program, participants will use Immersive Labs' interactive, hands-on content and CyberSkill exercises to empower one another in advancing their cybersecurity knowledge and experience.

After participating in this incredible program, you will have proof on your resume of further cybersecurity experience and will receive a 6-month WomSA mentorship.
